Gigabit NAS External Hard Drive 1TB

The Verbatim NAS (Network Attached Storage) Hard Drive lets you store and share your files and folders over a network, and is the perfect back up device for the small or home office environment.

Verbatim NAS provides a Media server, provided by TwonkyMedia, letting your organise your media content (photos/music/videos), which can be played back via a compatible device attached to the network. With the iTunes server, you can store and manage your music collection centrally on the drive and access your music files via iTunes from any computer on your network.

The NAS Hard Drive offers 2 USB ports. Connect a printer to one of the USB ports to designate it as a network printer and print files from any computer attached to the network. The other USB port can be used to attach an additional USB Hard Drive to expand the networks storage capacity.

The Hard Drive also has an FTP server which allows the transfer of large files over the internet. Configure all these functions and more, including a BitTorrent client for securely transferring/sharing large data files peer to peer via a web interface, easily through your web browser.

Protect your movies, music, photos and more with Nero's BackItUp 4 Essentials software which includes full system backup and restore functions with optional password security.

The Verbatim Gigabit NAS Drive is compliant with the latest generation of high-speed wired networks and has an energy-efficient drive mode that saves power when the drive is not in use. Perfect for expanding your existing network storage, the Verbatim NAS Drive offers the secure back-up you need and the popular media function you want.

Product Number: 47591

Capacity: 1TB

Features and Benefits

- **Media Server** - The drive is DLNA-compliant so you can watch movies on your TV through your digital media player or share files with other DLNA-compliant hardware like your gaming console.
- **iTunes Server** - With the iTunes Server, you can store and manage your music collection centrally on the drive and access your music files via iTunes from any computer on your network.
- **Printer Server** - Connect a USB printer into one of the USB host ports and set up a networked printer.
- **FTP Server** - The NAS Drive functions as an FTP server for transferring large files over the internet.
- **BitTorrent Function** - The bundled software includes BitTorrent for accessing rich media over the internet.
- **Backup Software** - Set up automatic backup of all your networked computers using Nero BackItUp Essentials Backup Software that comes bundled with the drive.
- **Additional Storage** - Extend your storage capacity by connecting a USB hard drive to the USB host port.
- **Apple Bonjour** - Because the drive supports Apple Bonjour, you can connect your Mac to shared network drives.
- **Gigabit Ethernet Capable** - The NAS Drive is compliant with the latest generation of high-speed wired networks.
- Free Technical Hotline Support.
- Verbatim 2 Year Limited Warranty.

System Requirements

Ethernet port
 CD-ROM Drive
 Windows 2000 / XP / Vista / 7
 Mac OS 10.1 or higher
 Linux 2.4 or higher

Specifications

- External Power: +/-12VDC input
- Interface: 1 x Ethernet Port / 2 x USB ports
- Data Transfer Rate: LAN: 1000 Mb/sec (max)
 USB: 480 Mb/sec (max)
- Dimensions: 200 x 115 x 50mm (L x W x H)
- Weight: 1KG

Network Features:

- Network Attached Storage (NAS) application
- Browser-based configuration tool
- IEEE 802.3i, IEEE 802.3u, IEEE 802.3ab (10/100/1000)
- SMB / CIFS (Samba)
- Apple Bonjour
- Apple iTunes Server
- Print Server
- UPnP
- Windows Internet Name Server (WINS)
- FTP Server
- DHCP Server and Client
- NFS Server
- Network Time Protocol (NTP)
- HDD Power Management
- HDD Encryption
- User and Group Management
- UPnP AV Media Server (Twonky)
- BitTorrent function (TorrentFlux)
- Battery powered time of day clock

Pack Contents:

Gigabit NAS External Hard Drive
 EU & UK Power Cables
 Ethernet Cable
